kriley@wayneoh.org

Farmers need to be aware if they apply fertilizer, particularly manure to their fields and it ends up in a waterway or runs off into a body of water there could be penalties. ODA (Ohio Department of Ag) reps (*Matt Lane*) will be explaining the current rules and regulations. So, plan on attending this free short meeting to learn the basics of the rules, risk, fines, ask questions, and learn how you can prevent this from happening or what to do in an unexpected circumstance. Please rsvp to Wayne SWCD **330-262-2836** no later than Tues. April 3rd so we can make sure we have enough donuts and coffee! Thank-you.

AGENDA:

9:30	Registration/Introduction	ODA	Reps,
		Wayne & Holmes SWCD	and OSU Extension
10:00 -11:00	Liability aspects of Manure		
11:00 -11:15	BREAK		
11:15 -11:45	Pollution Complaint Process		
11:45	Questions...		

SPREAD THE WORD!

- Know the Rules...
- Protect yourself.
- Protect your farm.
- Protect clean water.

Sponsored By :

This is a "NO- FAULT " Meeting—Nobody is going to come knocking on your door looking for pollution issues just because you attended and had questions!
